Experience

NEXITUS.CR | COSTA RICA

Next/React Developer | August 2022 – November 2023

- I worked as Frontend Developer for Nexitus, a team that generates and transforms ideas to empower companies. In this role, I built high-quality web applications using modern technologies such as Next.js with Typescript, Tailwind CSS, and connections to the Graphql backend and Strapi.

Communication

Excellent communication skills enable me to collaborate with clients, stakeholders, and cross-functional teams to deliver high-quality results. Also, my wide background in different technologies give me the facility to communicate effectively with technical and non-technical roles.

Leadership

I have been involved in various iterations of 'No Country' in roles such as Developer, Designer, and Team Leader for cross-functional teams.

Moreover, during my tenure at Nexitus, I played a crucial role in the team, possessing a comprehensive understanding of the product. I was responsible for liaising with clients, facilitating onboarding for new developers, and delivering presentations.
